Discover™ Pavers, Elements™ Paving Stones, Summit Stone® Landscape Units, Crest™ Bullnose Pavers, Integrity™ Retaining Wall System

Homeowners Use County Materials' Readily Available Concrete Landscape Products to Meet Tight Timelines and Achieve Desired Results

Solutions: Diverse collection of concrete landscape products; custom features, including seat walls, garden beds, firepits, and pillars

With summer approaching these homeowners contacted Olson Hardscape Paving to design and build a breathtaking patio using County Materials' concrete landscape products. The homeowners visited a nearby County Materials showroom to select products, colors, and textures that would enhance the natural beauty of their wooded lot.

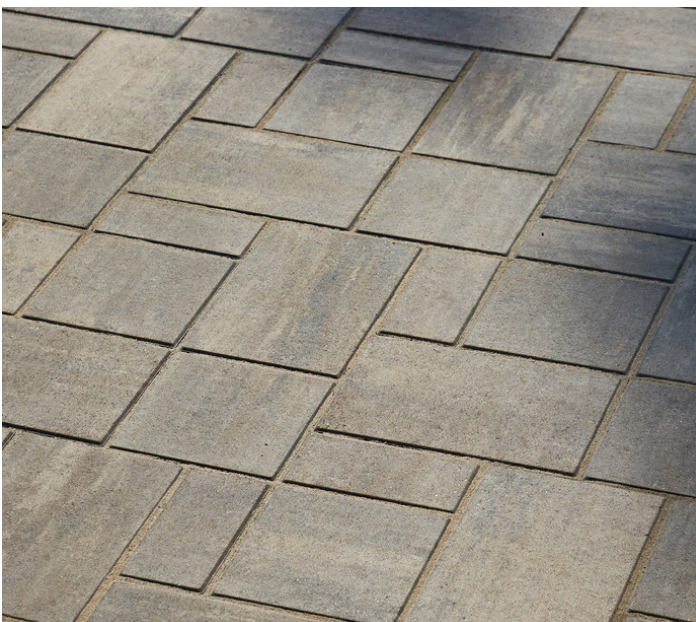

Discover Pavers in Timeless were chosen as the field paver and were paired with a solidier course of Elements Paving Stones in Reflection. The same Elements units were used with Crest Bullnose Pavers in Reflection and Integrity Retaining Wall System units in Timeless for custom patio steps. Additionally, the patio's garden bed, firepit, seat walls, and pillars were built using Summit Stone Landscape Units in Timeless and Reflection.

Continued on page 2.

County Materials utilizes Genesis Face-Mix Technology™ to manufacture pavers with lasting performance. This technology produces an integrally colored surface layer, comprised of a high-strength mix, that resists weather, wear, and stains. With enhanced durability, these pavers can withstand decades of heavy use and inclement weather conditions.

The homeowners relied on County Materials' diverse collection of readily available concrete landscape products to meet their one-month timeline without sacrificing product preference. The lasting performance of our concrete pavers and landscape block ensures these homeowners will be satisfied with their patio for many seasons to come.
