

CASE STUDY

PROJECT DETAILS

Project Name:

Highway 83 Residence

Location:

Mukwonago, WI

General Contractor:

Laue's Landscapes & Design Solutions, Inc.

Product Manufacturer:

County Materials Corporation

Date:

2020

Key Products:

County Block® Retaining Wall System

County Block® Retaining Wall System Offers Refined Aesthetics and Reliable Functionality

Solutions: Erosion prevention; decorative retaining wall solution

These homeowners built a garage into the hillside of their home to maximize storage space. The location of the garage, however, caused concern for erosion. The homeowners sought a durable and attractive retaining wall solution to protect their property.

County Block Retaining Wall System proved ideal for this project. Available in a variety of colors, the homeowners selected Canyon Brown to complement the exterior of their home. County Block provides a natural look with a split face finish. The units' subtle texture enhances the property's appearance and adds dimension to the existing concrete block and clay brick.

Continued on page 2.

County Materials' County Block Retaining Wall System protects the property's hillside. With unmatched durability, County Block withstands freeze/thaw cycles throughout its extended life. The reliable strength of this retaining wall system mitigates erosion and the costly damage associated with it.

County Materials delivered 500 SF of readily available County Block Retaining Wall units, allowing the project to be completed within three weeks. County Block provided these homeowners a long-lasting, durable solution to their property's slope with enhanced aesthetics.

County Block's subtle texture enhances the property's appearance and adds dimension to the existing concrete block and clay brick.
