

Ballast Pavers

Standard Size
Pavers available in thickness of 2"

23 13/16" Sq.

See our **Landscape Products Specifications Guide** for more information on product specifications, care & maintenance, installation, and more.

The color photos shown in this flyer were prepared with careful attention to accuracy. However, colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry

PROPERTY	TESTING VALUE		TEST METHOD
Compressive Strength	>3000 PSI average		ASTM C 140
Water Absorption	<6%		ASTM C 140
Flexural Strength	>1,200 pound average		ASTM C 140
Coefficient of Friction	Dry 1.03	Wet 0.81	ASTM C1028-07

Packaged 20 units per pallet
