Hibbing Way Residence

Location:

Lakeville, MN

General Contractor:

Nature's Quest

Product Manufacturer:

County Materials Corporation

Date:

2020

Key Products:

Vantage® Pavers, Grand Vantage® Pavers, Summit Stone® Landscape Units

County Materials' Landscape Products Offer Versatility and Durability to Backyard Space

Solutions: Landscape pavers offer unmatched durability

These homeowners sought versatile landscape products with reliable durability to transform their backyard. With a contemporary design in mind, County Materials' Vantage Pavers, Grand Vantage Pavers, and Summit Stone Landscape Units were utilized to build a functional patio space and fire pit.

Grand Vantage Pavers in Majestic and a border of Vantage Pavers in Reflection were used to create the patio. A stepping stone feature was formed using Grand Vantage Pavers in Reflection, adding a uniform walkway to the entertainment area. The space was completed with a Summit Stone Fire Pit Kit.

Continued on page 2.

Manufactured using Genesis Face-Mix Technology™, County Materials' concrete pavers are integrally blended and resist wear in high traffic areas. The pavers' fabrication protects their appearance throughout their extended service life and promotes low life cycle cost.

County Materials' expansive collection of readily available landscape products allowed the homeowners to select their desired colors and textures without sacrificing their timeline or budget. More than 600 SF of County Materials' concrete landscape products were installed within two weeks
