Premier Ultra® Burnished  
Block in Twilight

## County Materials' Premier Ultra® Burnished Masonry Units Provide Stylish, Durable Exterior

**Solutions:** County Materials' Burnished Masonry Units are a versatile, stylish solution for apartment exterior

County Materials' Premier Ultra Burnished Masonry Units provide a durable, stylish exterior for a 59-unit apartment building in a vibrant Madison, Wisconsin neighborhood. Gorman & Company partnered with state and local officials to develop The Valor on Washington Apartments to provide affordable housing for veterans.

The concrete masonry units in Twilight impart a bold style with high durability. Premier Ultra Burnished Masonry Units were specified with project versatility in mind and are manufactured in structural load-bearing, full and thin veneer units. Premier Ultra Burnished units are integrally colored, and their surface is ground smooth to reveal natural aggregates for a result that replicates the look of hand-cut stone or granite for a fraction of the cost. Concrete masonry has high fire resistance ratings, resists weathering, and is easy to maintain.
