Building Communities

We deliver concrete solutions for growing communities.

Trusted Experience & Responsiveness

County Prestress & Precast, LLC manufactures resilient concrete solutions to meet the growing demand for infrastructure, multifamily housing, and large-scale commercial construction. Our modern production facilities and skilled team members position us to meet this demand by manufacturing strong, long-lasting, and high-performance products.

We are your source for reliable construction solutions, including parking structure and commercial building components, hollowcore, insulated wall panels, prestressed bridge girders, ArchCast® Precast Bridge Systems, precast elevator & stair shafts, MagnumStone, concrete perimeter walls, integrated stairs, and signage and light pole bases.

Your Full-Service Partner

Commercial, industrial, and infrastructure construction professionals rely on our responsive project management team to support them through every phase of construction. County Prestress & Precast works with you to plan, design, and implement efficient and cost-effective solutions, so you can avoid costly pitfalls and delays. Rely on us to help make the difficult projects simple.
