

## PRODUCTS | RETAINING WALLS

# RIB ROCK

**RIB ROCK™ RETAINING WALL SYSTEM** can easily construct walls from 6 to 20 feet high with additional site-specific engineering. Each block is manufactured with an interlocking design for simplified installation and enhanced security.

### STANDARD FINISHES

Dry Stack Texture

Rough Texture\*

Available in Gray as a standard color. Custom staining may be done onsite by an installer.

RIB ROCK RETAINING WALL SYSTEM in Dry Stack

The color photos shown were prepared with careful attention to accuracy. However, colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry.
