**WOOD GRAIN Concrete Step Units** are manufactured with a natural-looking wood grain texture on all sides, similar to weathered wood. The unit's larger size covers more square footage than alternative step options.

### Advantages

- Unit blends in with the natural environment
- Extra deep treads make for easier climbing
- Unit can be stained to color of choice
- Surface texture on all sides
- Hook lifting point for easier handling and installation

### Standard Colors

GRAY

CHARRED  
DRIFTWOOD

### Dimensions

25 x 48 IN  
6 1/4" HEIGHT

more about this product

The color photos shown in this brochure were prepared with careful attention to accuracy. However, colors shown may vary from actual hues and should only be used as a guide. Refer to actual product samples for final color selection. Because concrete units are manufactured with high quality, naturally-mined aggregates and materials, variations in color or shading should be expected in products that are manufactured at different times and in units having different shapes. This color or shading variation is acceptable in the industry.

**Proud to be American based  
and American made since 1946**
