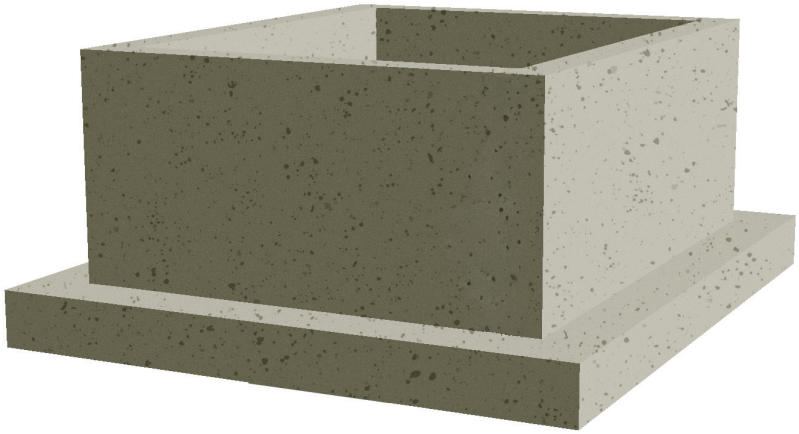
Modular Elevator Pits

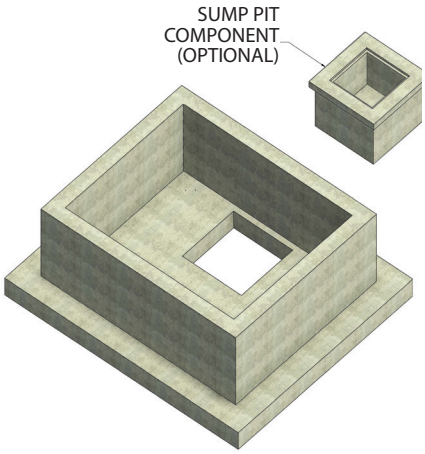
Accelerate construction schedules and prevent water seepage

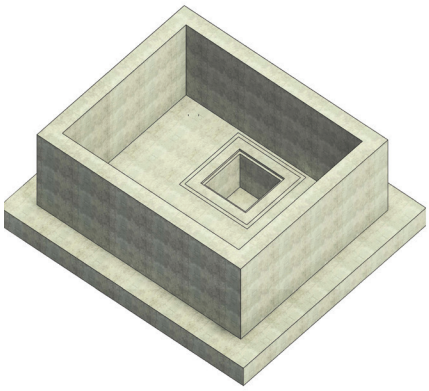
Manufactured in the USA by County Materials

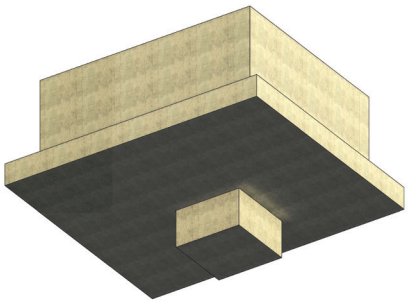
Overcome common challenges such as water seepage and project delays with a high-quality precast monolithic elevator pit. Designed for efficiency, Modular Elevator Pits by County Prestress & Precast can be installed in one day. Each unit features a double water barrier, with a hydrophobic admixture blended into the concrete mix and a roll-on waterproof coating applied after curing.

Modular Elevator Pits are compatible with precast elevator shafts, allowing both components to be installed the same day for maximum time savings.









Specifications

- Sizes vary based on project requirements
- Manufactured to meet exacting specifications
- Compatible with precast elevator shafts
- Double water barrier design

Consider the Advantages

- Accelerate construction timelines
- Prevent water seepage
- Minimize weather delays
- Reduce construction costs
- Require fewer inspections
- Provide long service life with minimal maintenance
- Short lead times
